OBJECTIVE

Third-year Computer Science student with hands-on experience in web development, database management, and software development. Proficient in React.js, JavaScript, Tailwind CSS, Python, SQL, PostgreSQL, and Supabase. Experienced in building real-world applications through academic and personal projects. Passionate about problem-solving, continuous learning, and developing innovative software solutions.

EDUCATION

MIC Arts & Science College, Athanikkal <i>BSc Computer Science Honours - Affiliated to University of Calicut</i> - Currently in 5th Semester - Relevant coursework: Data Structures & Algorithms, DBMS, Computer Networks, Software Project Management	Calicut, Kerala 2024 – 2028
--	--------------------------------

PROJECTS

Portfolio Website <i>React, Vite, Tailwind CSS, JavaScript</i> Developed a responsive personal portfolio showcasing projects, technical skills, blogs, and contact information with interactive project showcases, and optimized performance across desktop and mobile devices.	2026
Thudipp <i>React, Vite, Tailwind CSS, Supabase, PostgreSQL, Recharts</i> Developed a college blood donor registry with role-based access control (public, volunteer, admin) and privacy-first donor matching by hiding phone numbers and enabling coordinator-mediated emergency contact.	2026
Notebookfolio <i>React JS, Vite, CSS</i> My first attempt at building a personal portfolio. Created for fun while exploring React and Vite, and experimenting with creative Notebook Inspired UI design.	2025
Gym Membership Management System <i>SQL, DBMS</i> Developed a normalized SQL database with 7 relational tables and a complete ER diagram, supporting member management, trainer assignments, payment tracking, attendance, and membership expiry.	2025
Hospital Management System <i>C, Data Structures, File I/O</i> Built a C-based hospital management system with administrator and doctor modules, supporting CRUD operations, binary file storage, stack-based undo, and dynamic memory management.	2024
GlassyTube <i>HTML5, CSS3, JavaScript, YouTube Data API v3</i> Built a live YouTube UI clone using the YouTube Data API v3 with async/await and API chaining, built with a dark liquid glass design that presents live YouTube content, including titles, thumbnails, and view counts.	2023–2025

TECHNICAL SKILLS

Languages: C, Python, SQL, JavaScript
Web: React JS, HTML5, CSS3 (Grid, Flexbox), Tailwind CSS, Bootstrap, Vite
Backend & Database: Supabase, PostgreSQL, YouTube Data API v3
Concepts: Data Structures, DBMS, Computer Networks, Software Project Management, Role-Based Access Control
Tools: Git, GitHub, VS Code, GCC Compiler, Linux/Windows CLI

CERTIFICATIONS

- Python & AI Workshop - Upcode Software Labs, MIC College (2025)
- AI & Machine Learning Industrial Training - Sinro Robotics Pvt Ltd (2025)
- Machine Learning Workshop - Upcode Software Labs (2026)
- TRIVERGE-26 Certificate of Participation - PPTM Arts & Science College, Malappuram (2026)
- Python Django Full Stack Web Development Internship Certificate (2026)

ACTIVITIES & INTERESTS

- NSS (National Service Scheme) Volunteer – MIC Arts & Science College
- Participated in Inter-college Web Development Competition
- Industrial visit focused on Advanced Networking and Server Infrastructure
- Interests: Problem Solving, Exploring New Technologies, Research & Learning
